Schedulence

ScheduleOnce plans - detailed comparison chart

14-day free trial. No card required.

	Feature	\$7.50/user/mo	Professional \$15.80/user/mo	\$32.50/user/mo Try it free
	Booking pages per user* Each user license comes with a set number of booking pages. Additional booking pages can be purchased at \$7/page/month.	1	2	3
1.	Unlimited bookings. ScheduleOnce does not limit the number of appointments that can be made or charge extra fees for bookings. You can accept as many bookings as your available time will allow.	V	V	V
2.	Automatic booking mode In automatic booking mode, customers select a single time and the booking is automatically created in the all parties' calendars with no further action required. Learn more about automatic booking	V	V	V
3.	Automatic creation of Calendar events When a booking is made, the event is automatically created in your connected calendar and added to the customer's calendar regardless of the calendar program they use.	V	V	~
4.	Booking with approval mode Review and approve each booking before it is scheduled. In this mode, the customer submits a request, you review the requested times and pick the one that works best for you. Learn more about booking with approval	V	V	~
5.	Exchange integration Integrate directly with your Exchange server in a personal or a corporate mode, centrally connecting the entire organization or selected departments only. Learn more about our Exchange integration	V	V	~
6.	Office 365 Calendar integration Keep your schedule in sync and eliminate double bookings. ScheduleOnce communicates with your Office 365 Calendar in real-time. Learn more about our Office 365 Calendar integration	V	V	~
7.	Outlook Calendar integration Keep your schedule in sync and eliminate double bookings. ScheduleOnce communicates with your Outlook Calendar in real-time. Learn more about our Outlook Calendar integration	V	V	V
8.	Google Calendar integration Keep your schedule in sync and eliminate double bookings. ScheduleOnce communicates with your Google Calendar in real-time. Learn more about our Google Calendar integration	V	V	V

9.				
	iCloud Calendar integration			
	Keep your schedule in sync and eliminate double bookings.	✓	✓	✓
	ScheduleOnce communicates with your iCloud Calendar in			
	real-time. <u>Learn more about our iCloud Calendar integration</u>			
10.	Zapier integration			
	ScheduleOnce's seamless integration with Zapier allows you to			
	push booking and customer data to various apps in multiple	✓	✓	✓
	categories, including CRM, email marketing, productivity, time	·	·	·
	tracking, invoicing, and more. <u>Learn more about our Zapier</u>			
	<u>integration</u>			
11.	Payment integration***			
	Payment integration allows you to collect payments as an			
	integral part of your booking process. ScheduleOnce takes	✓	✓	✓
	care of all payment activities in an automated and secure			
	manner. <u>Learn more about Payment integration</u>			
12.	Centralized user management			
	ScheduleOnce is a true multi-user system enabling complete			
	user management. Administrators can add and delete users	✓	✓	✓
	and assign booking page access rights. <u>Learn more about our</u>			
	<u>multi-user support</u>			
13.	Booking page access control			
	Control who on your team has access to which booking pages.			
	Each booking page can have an owner and any number of	•	V	•
	editors and viewers.			
1.0	Admin and member roles

				T
	Any notification to customers, users, and stakeholders can be			
	delivered via SMS. SMS can be used instead of or in addition to			
	email notifications. Our SMS network can reach any number			
	globally. <u>Learn more about SMS notifications</u>			
20.	Cancel/reschedule by customer			
	Customers can always cancel or reschedule their	./	./	
	appointments. All parties are immediately notified of all	•	•	•
	schedule changes. <u>Learn more about canceling/rescheduling</u>			
21.	Cancel/reschedule by user			
	The booking page owner or any other stakeholder with access			
	rights can cancel or reschedule anytime. All meeting	✓	✓	✓
	participants will be immediately notified. <u>Learn more about</u>			
	canceling/rescheduling			
22.	Virtual meeting locations			
	ScheduleOnce allows you or the customer to set virtual			
	locations in the form of a phone number, conference bridge, or	√	V	/
	integrated web conferencing. <u>Learn more about meeting</u>	•	~	•
	location options			
23.	·			
23.	Face-to-face meeting locations School via Onco allows you are the Customer to set a physical			
	ScheduleOnce allows you or the Customer to set a physical	✓	✓	✓
	location for the meeting. The street address will automatically			
	create a map link. <u>Learn more about meeting location options</u>			
24.	Recurring availability			
	You can set your availability on a recurring weekly pattern so			
	you don't have to repeat it on a weekly basis. Exceptions can	•	•	/
	always be made using date-specific availability. <u>Learn more</u>			
	<u>about our time management features</u>			
25.	Date-specific availability			
	Date-specific availability is used to create exceptions to			
	recurring availability. You can also set availability for specific	✓	✓	✓
	dates only, such as a trade show event. <u>Learn more about our</u>			
	<u>time management features</u>			
26.	Buffer between bookings			
	This setting saves you from being booked back to back while			
	still allowing for maximum utilization of your schedule. The			
	buffer can be used to account for travel time, cleanup, rest	•	•	
	time and more. <u>Learn more about our time management</u>			
	<u>features</u>			
27.	Booking timeframe			
_,.	Define a booking window when customers are allowed to			
	book. Define how far in advance and limit how far into the	✓	✓	V
	future customers can make bookings. <u>Learn more about our</u>	·	Ť	·
	time management features			
28.	Automatic time zone detection			
20.	The customer's time zone is automatically detected based on			
	their location's IP address. The customer then confirms the	4	√	4
	time zone with a single click. <u>Learn more about our time zone</u>	•	•	•
20	<u>features</u> Automotic handling of DST changes		.1	
29.	Automatic handling of DST changes	•	V	V

All rights reserved.

	ScheduleOnce tracks the Daylight Saving Time status of more			
	than 300 locations worldwide. All adjustments are			
	automatically made, ensuring you never have a time zone			
	mishap. <u>Learn more about our time zone features</u>			
30.	Your logo			
	You can replace the ScheduleOnce logo on your booking page			
	with your company's logo. This will change the logo on all	•	V	•
	application pages, including those accessed by your			
24	customers. <u>Learn more about our branding features</u>			
31.	System themes			
	Choose from five out-of-the-box themes and use the one that			
	best matches your brand. The theme will be used whether	•		•
	accessed via your standard booking page link or embedded			
22	into your website. <u>Learn more about our branding features</u>			
32.	Email name label and reply to email address			
	Customize the name label (from name) and reply to email	• 1	•	.,
	address on emails sent to your Customers, reflecting your	•		•
	company's branding and communication preferences. <u>Learn</u>			
22	more about email integration			
33.	Cancel/reschedule policy All customer cancellation and reschedule activities are subject			
	to the cancel/reschedule policy set by you. The policy sets the			.,
	exact rules for when a customer can cancel and/or reschedule.	•	•	V
	Learn more about the Cancel/reschedule policy			
2.4	Booking reassignment			
34.	Seamlessly reassign bookings from one team member to			
	another, while keeping the customer experience intact.	./		./
	Requires Google calendar integration or no calendar	•	•	•
	integration. <u>Learn more about booking reassignment</u>			
35.	Localization			
33.	Localize the scheduling experience for your customers.			
	ScheduleOnce offers seven out-of-the-box languages including	J	1	/
	American English, British English, French, German, Spanish,	•	•	•
	Portuguêse (Brazil), and Dutch. <u>Learn more about localization</u>			
36.	Mobile friendly			
30.	ScheduleOnce is mobile friendly for customers and users. Our			
	mobile interface is fully responsive – It automatically detects	V	V	V
	the mobile device and adjusts accordingly. <u>Learn more about</u>	•		•
	our mobile support			
37.	Multiple event types			
.	Accurately model your scheduling scenario by adding multiple			
	event types to your Booking pages, each with its own			
	scheduling options, time slot settings, booking forms,		/	/
	customer notifications, and cancel/reschedule policy. <u>Learn</u>			
	more about event types			
38.	Master pages			
	Master pages provide a single point of access to multiple		V	V
	booking pages, enabling advanced scheduling scenarios such			
	5			

	as channel and team member selection. <u>Learn more about</u>		
	<u>master pages</u>		
39.	Group sessions		
	Allow multiple customers to make bookings for the same time	_	
	slot. Set a cap on the number of participants or make the		/
	capacity unlimited. Participants cannot see each other's		
	information. <u>Learn more about group sessions</u>		
40.	Session packages		
	Allow your customers to schedule a series of appointments in		
	one booking. Session packages are ideal for professionals who		✓
	need to see customers on an ongoing basis. <u>Learn more about</u>		
	<u>session packages</u>		
41.	Native Infusionsoft integration		
	ScheduleOnce fully integrates with Infusionsoft, enabling the		
	updating or creation of a contact record when a booking is		
	made. Any booking made via ScheduleOnce is automatically	'	✓
	classified and tagged, enabling automatic triggering of		
	Infusionsoft sequences and follow-up activities. <u>Learn more</u>		
	<u>about our Infusionsoft integration</u>		
42.	Native Zoom integration		
	The ScheduleOnce connector for Zoom seamlessly integrates		
	Zoom with your booking activities through all phases of the		· /
	booking lifecycle. When a booking is made, users and		
	customers will receive one confirmation with all Zoom session		
	details. <u>Learn more about our Zoom integration</u>		
43.	Native GoToMeeting integration		
	ScheduleOnce completely automates the provisioning of		
	GoToMeeting sessions. You and your Customers receive one		
	ScheduleOnce confirmation with all web conferencing and		
	appointment data in your respective local time zone. <u>Learn</u>		
	more about our GoToMeeting integration		
44.	Daily and weekly workload rules		
	Set a cap on the number of bookings that can be made in any		
	given day and/or week. When the cap is reached, the entire		
	day or week becomes unavailable and no additional bookings		
	can be made. <u>Learn more about our time management</u>		
	<u>features</u>		
45.	Booking in multiple calendars		
	Automatically create the calendar event in additional		
	calendars. These can be sub-calendars you own, or depending	/	✓
	on the calendar platform, calendars that others have shared		
	with you.		
46.	Only display time slots during customer's local working		
	hours		
	If your customer's time zone is several hours apart from yours,		
	they may be confused by time slots that are outside their	V	✓
	working hours. This setting allows you to only display time		
	slots that fall within their local working hours. <u>Learn more</u>		
	about our time zone features		
		L L	

4-			
47.	Automatic redirect		
	Automatically redirect customers to different webpages after		
	they schedule, reschedule or cancel a booking. This feature	· · · · · · · · · · · · · · · · · · ·	/
	allows you to customize the entire customer experience and	· ·	V
	lets you accurately track the effectiveness of your campaigns.		
	<u>Learn more about automatic redirect</u>		
48.	Multiple locations/channels		
	Offer physical and virtual channels such as phone, Skype, and		
	even integrated web conferencing. Each channel can have its	✓	✓
	own availability, notifications, and settings. <u>Learn more about</u>		
	locations and channels		
49.	Booking page and event type categories		
	Booking page and event type categories simplify the		
	customer's scheduling experience and enable customers to	_	✓
	quickly find the option most relevant to them. <u>Learn more</u>	·	· ·
	about categories		
50.	Booking page tags		
55.	Booking page tags Booking page tags enable customers to filter booking pages		
	by keywords and find what they need in a fast and efficient	V	✓
	manner. <u>Learn more about booking page tags</u>		
51.	Custom themes		
J1.	Fully customize the look and feel of your customer scheduling		
	experience using our extensive and user-friendly theme		
	• • • • • • • • • • • • • • • • • • • •	✓	✓
	designer. You can set anything from the logo to the		
	background image, background opacity, font and other		
F2	properties. <u>Learn more about custom themes</u>		
52.	Custom booking forms		
	Custom booking forms are used to collect data from your		
	customers in the most precise and efficient manner. All		V
	Booking form data can be <u>analyzed in reports</u> . <u>Learn more</u>		
	<u>about custom booking forms</u>		
53.	Website widget		
	Our brandless multi-channel widget enables website visitors to		
	book appointments directly on your website. The widget also	_	
	supports submission of email inquiries and can prominently		•
	display your contact phone number. <u>Learn more about the</u>		
	<u>website widget</u>		
54.	Website embed		
	Our website embed enables customers to make appointments		
	directly on your website. Our website embed is brandless,	V	✓
	responsive, and can be customized with your theme of choice.		
	<u>Learn more about our website embed</u>		
55.	Website buttons		
	Our website buttons allow you to add static or floating		
	booking buttons to any web page. Our buttons are brandless	V	V
	and both text and colors are completely customizable. <u>Learn</u>		
	more about website buttons		
56.	Personalized links	V	✓
	1	·	

6/9

	Personalized links allow customers to click on your booking		
	page link and pick a time, without having to fill in their		
	personal details. The booking form is either pre-populated		
	with their details or skipped altogether. <u>Learn more about</u>		
	personalized links		
57.	Customer guests		
	When customers make a booking, they are able to invite		
	additional attendees who will be added to the meeting. This	√	1
	keeps all attendees up-to-date with meeting details and	V	•
	ensures that all relevant parties attend the meeting.		
	<u>Learn more about customer guests</u>		
58.	Reports		
	Summary and detail reports offer important insight into your		
	account's booking activity. Reports can be viewed in multiple	✓	✓
	dimensions and be exported as a PDF or an Excel spreadsheet.		
	<u>Learn more about ScheduleOnce reports</u>		
59.	Compliance BCC email		
	Comply with industry regulations and organizational policies		
	by automatically sending a hidden copy of all outgoing	•	•
	customer email notifications to a designated email address.		
60.	Multiple distribution methods		
	ScheduleOnce offers multiple methods for automatically		
	distributing bookings amongst team members. Bookings can		✓
	be distributed via <u>round robin</u> , <u>pooled availability</u> ,		
	priority-based assignment, or find by time.		
61.	Resource pools		
01.	Resource pools group booking pages together according to		
	any characteristic. This allows you to dynamically assign		✓
	bookings to team members and monitor distribution over		•
	time. Learn more about resource pools		
62.	Panel meetings		
02.	Panel meetings allow customers to book a time to meet with		
	multiple team members simultaneously. You can create panels		V
	with specific team members, or dynamic panels using resource		
	pools. <u>Learn more about panel meetings</u>		
63.	Custom notifications		
03.	Create custom email and SMS confirmations, reminders,		
	follow-ups, and other notifications with complete control over		V
	content and branding. <u>Learn more about customizable</u>		•
	notifications		
64.	Web form integration		
04.	After prospects fill out your web form, they will be able to pick		
	a time to be called, without having to provide any additional		V
6F	information. <u>Learn more about web form integration</u>		
65.	Editable customer interface text		
	ScheduleOnce allows you to edit the customer interface text		✓
	on your booking pages. You can edit the text to be more in line		
	with your company's tone of voice and communicate with		

7/9

	your customers in their vocabulary. <u>Learn more about editable</u>	
CC	, , <u> </u>	
	<u>customer interface text</u>	
66.	Native Salesforce integration	
	The ScheduleOnce connector for Salesforce enables complete	
	scheduling integration throughout the entire customer	
	lifecycle. <u>Learn more about our Salesforce integration</u> .	
67.	Native WebEx integration	
	ScheduleOnce completely automates the provisioning of	
	WebEx sessions. You and your customers receive one	
	ScheduleOnce confirmation with all web conferencing and	•
	appointment data in your respective local time zone. <u>Learn</u>	
	more about our WebEx integration	
68.	Customizable calendar event	
	Fully customize the content of calendar events to ensure that	V
	the information you want to deliver is always at your	
	customer's fingertips. <u>Learn more about custom notifications</u>	
69.	Email from your domain	
	All emails to customers and users are sent from your domain	•
	and email address of choice. <u>Learn more about email from</u>	
	<u>your domain</u>	
70.	Custom booking domain	
	With a custom booking domain, ScheduleOnce booking pages	
	can be accessed via a link on your domain, allowing you to	✓
	keep your branding consistent and maintain customer trust.	
	<u>Learn more about custom booking domain</u>	
71.	Custom security policies	
	Custom security policies include features such as password	
	complexity, account lockout, and short sessions. <u>Learn more</u>	
	<u>about custom security polices</u>	
72.	Meeting resources	
	Automatically reserve a resource for your meeting when a	
	team member is booked. This ensures that a booking will not	✓
	be made unless the resource you need is available. <u>Learn more</u>	
	<u>about meeting resources</u>	
73.	Notifications to a Non-ScheduleOnce User	
	Automatically notify a single external stakeholder when	
	bookings are made or canceled on a given Booking page. This	✓
	comes in handy in scheduling scenarios in which stakeholders	
	cannot have a ScheduleOnce account.	
74.	API integration	
	ScheduleOnce offers APIs that can be used to send booking	
	data to your application environment. You can create	✓
	webhooks, and send and receive booking data via client-side	
	APIs. <u>Learn more about API integration</u>	
75.	Salesforce connector in advanced secure mode	
	Allows enterprises to connect ScheduleOnce to their Salesforce	4
	org using a reduced permission set. This mode can only be	•
	enabled by <u>contacting ScheduleOnce</u> .	
76.	HIPAA compliance	V

Schedulence

ScheduleOnce offers a HIPAA compliant scheduling solution, keeping your patient data safe and secure. Organizations that		
require HIPAA compliance can sign our BAA. Learn more about HIPAA compliance.
